ESG 360

INVESTOR PROPOSAL · PRE-SEED · OCTOBER 2026

Every supplier is being asked for ESG data. Most have never measured it.

ESG360 is a self-serve ESG assessment that gives any company a defensible score, a sector benchmark and a gap plan in about ten minutes. It is built on the UN SDGs and the practices that today's disclosure rules ask about.

STAGE	RAISING	LIVE PRODUCT
Pre-revenue · product live	Pre-seed round	iamaffanalikhan.github.io/esg360

01 · THE PROBLEM

ESG reporting has moved down the supply chain.

Disclosure rules start with large companies. Those companies then ask their suppliers, contractors and borrowers for the same information. The smaller firms receiving those questions rarely have an ESG team, a rating or a baseline.

EUROPEAN UNION

CSRD and ESRS

Large companies must report on sustainability, including impacts across their value chain, which pulls suppliers into scope.

GLOBAL

ISSB · IFRS S1 and S2

Investor-focused sustainability and climate disclosure standards being adopted by jurisdictions worldwide.

UNITED ARAB EMIRATES

Federal Decree-Law 11 of 2024

In force since 30 May 2025. Public and private entities, including free-zone companies, must measure and report emissions. Fines range from AED 50,000 to AED 2 million.

INDIA

SEBI BRSR

Top listed companies file a Business Responsibility and Sustainability Report, with value-chain disclosures for their partners.

Why existing options don't fit smaller companies

- **Ratings are built for the largest companies.** Established ESG ratings cover listed groups and large suppliers, not the long tail of SMEs.
- **Consulting is slow and expensive.** A full ESG diagnostic is a project, not a first step.
- **Generic checklists ignore materiality.** Effluent treatment matters for a pharma plant, not a software firm. One questionnaire for everyone produces scores nobody trusts.

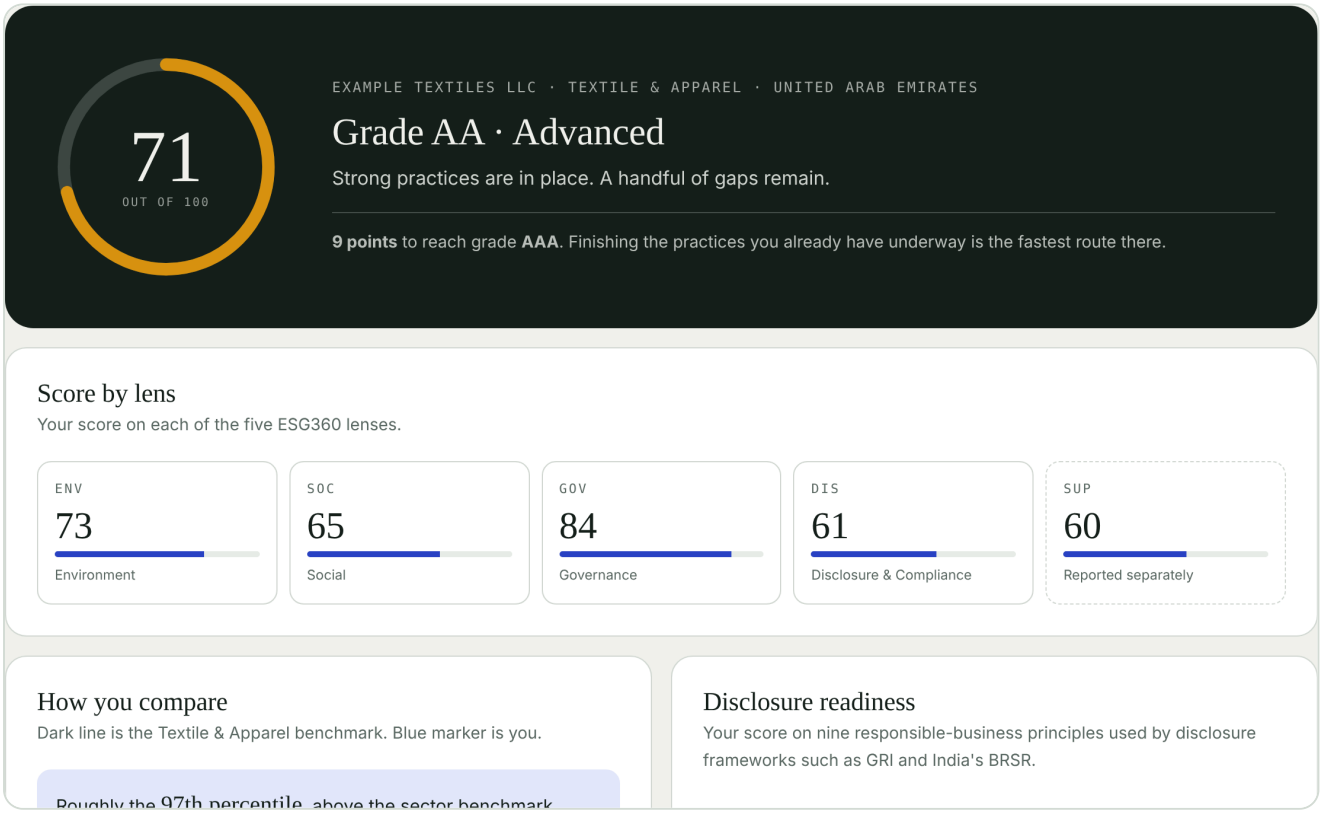

Sources: PwC Middle East, "UAE Climate Change Law"; DMCC, "ESG reporting in the UAE".

A defensible ESG score in ten minutes.

1. **Pick a sector.** Twelve modules, from real estate and textiles to banking and chemicals, each built around what that industry's buyers, lenders and regulators care about.
2. **Answer 35 plain questions.** Yes, In progress or Not yet. No data entry and no ESG expertise required.
3. **Get the scorecard.** A score out of 100, a grade from C to AAA, five lens scores, disclosure readiness, an SDG map and a sector benchmark.
4. **Act on it.** A ranked list of critical gaps and quick wins, the distance to the next grade, a PDF report and a certificate ID.

WHY IT IS DEFENSIBLE

- Proprietary, sector-weighted scoring model
- Rule-based: same answers, same score
- Every question mapped to an SDG and a responsible-business principle
- Covers what GRI, ISSB, CSRD, SASB, CDP, BRSR and the UAE Climate Law ask about

Live results screen for an illustrative textile company, using example answers.

03 · BUSINESS MODEL

Free to start. Paid when it matters.

FREE

ESG360 Score

Self-assessment, scorecard and self-assessed certificate. Brings companies in at no cost and builds the sector benchmark dataset.

PAID

ESG360 Verified

Evidence review of critical answers, a verified certificate for buyers and lenders, and reporting support.

PAID · RECURRING

Team access

For buyers, lenders and procurement teams to send ESG360 to suppliers or borrowers and compare results across a portfolio.

PAID · PARTNERS

Partner and white-label

For business councils, chambers, consultants and accountants who offer ESG360 to their members or clients.

Pricing for each paid tier will be set and validated during the first pilots.

04 · GO-TO-MARKET

Start where the regulation already bites.

PHASE	MARKET	CHANNEL
1 · Now	UAE	Business councils, chambers of commerce and sustainability groups whose members now fall under the Climate Law. Free member sessions and pilots, converting to Verified.
2	GCC and India	Suppliers in the value chains of BRSR filers and GCC corporates. Partner and white-label agreements with consultants.
3	EU and US supplier bases	Team access for buyers and lenders screening suppliers under CSRD and ISSB-aligned requirements.

05 · FOUNDER

Affan Ali Khan

Founder of ESG360 and a Dubai-based Strategy Analyst at Casa Milano, Danube Group's building materials division, covering commercial analytics and governance across UAE and Qatar branches.

EDUCATION

PGDM in Research and Business Analytics, WeSchool Mumbai. MA Economics (Data Science), LPU.

RESEARCH

Co-author of peer-reviewed research presented at IEEE, Springer, IIM and IIT venues.

AUTHOR

The Essential Marketing Analytics: From Data to AI, and a book on predictive analytics.

06 · WHERE WE ARE

- Product live and free to use, with 12 sector modules and a proprietary scoring model.
- Pre-revenue. Partner outreach to UAE business councils and chambers is starting now.

07 · THE ASK

Raising a pre-seed round

Funds will take ESG360 from a live product to first revenue:

- Run paid pilots with UAE business councils and their member companies
- Launch ESG360 Verified, including evidence review and certificates
- Build team access for buyers and lenders, with secure accounts and server-side scoring
- First hires in sales and ESG analysis

We would welcome 20 minutes to walk you through the product.
